

linrob

linBOX

Simply better robotics.

EASE-OF-USE

Just as easy to control and operate as any linrob range extender.

MODULAR

Simply build your own cell from our modular cell construction kit.

SEAMLESS INTEGRATION

linrob range extenders are built into our cells allowing the use of any cobot.

DIGITAL INTEGRATION

All types of control software or application software can be installed.

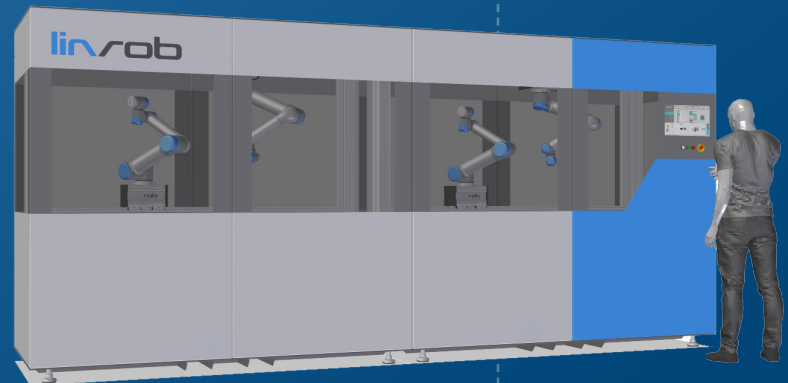

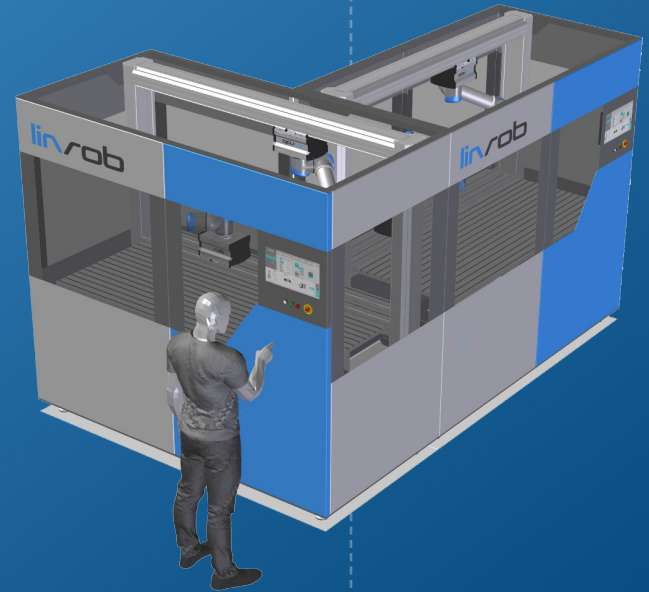

READY-TO-GO

The complete linBOX can be easily transported using a pallet truck.

PRODUCT DETAILS

- Each linBOX can be extended and combined as desired.
- Allows for flexible arrangement of linrob RE2 profiles inside.
- Fully integrated touch screen to control everything from one central position.
- Sufficient storage space for additional components and control electronics.
- Suitable for all existing cobot models.
- Integrated cable ducts.
- Optional media link.
